PROFESSIONAL EXPERIENCE / PORTFOLIO

ColdFusion Developer | [Frankie Friend & Associates, Inc.](#) | San Antonio, TX. - Jan 2017 - Present

- ColdFusion 11 Developer (Database MSSQL), upgrading and supporting the current systems for the United States Air Force (subcontractor). We maintain the highest security and there are many processes to release code. We use Fortify for the security checking and the source control is implemented within Eclipse using TFS (Team Foundation Server).

ColdFusion Developer | [State Of Idaho](#) | Boise, ID. - Jul 2011 - Jan 2017

- ColdFusion 9 Developer (Database MSSQL), upgrading and supporting Retirement System for The State Of Idaho. The system maintained 70,000 end users with retirement accounts. I implemented a 6.1 Fusebox framework and build secure applications using CFCs (ColdFusion Components).

ColdFusion Developer | [State Of Oregon](#) | Salem, OR. - Dec 2010 - Jul 2011

- Programming ColdFusion 9 applications (DB2 in Main Frame and Fusebox 6.1 Framework). I upgraded the tax entering application (for the internal staff) to better suit their current needs.

ColdFusion Developer | [Cayuse Technologies](#) | Pendleton, OR. - Apr 2009 - Dec 2010

- Programming ColdFusion 8 applications for various clients throughout the United States using mostly CF8 & Oracle 11g. Cayuse Technologies subcontracted programmers for their clients and all of these clients have non-disclosure agreements. I always got the big projects and sometimes maintained documentation as needed based on user requirements.

ColdFusion Developer | [Travel Solutions](#) | Columbus, OH. - Dec 2007 - Apr 2009

- I wrote secure ColdFusion 9 (MS SQL 2005) applications for the client portal. We developed and used mostly ColdFusion Components (CFCs) to ensure security and keep performance at a high level.

ColdFusion Developer | [Grand Traverse Resort & Casino's](#) | Suttons Bay, MI. | Jun 2006 - Dec 2007

- Lead programmer for the GTB website (<http://www.gtbindians.org/>). I also was training the current Newsletter Department web administration, CS3, HTML; and, CSS. I was also a systems technician which included Networking, Software, PC, Printer, Core Systems for [The Grand Traverse Resort](#), [The Leelanau Sands Casino](#); and, the [Turtle Creek Casino](#). I was in charge of the data backup system; and, strategies. I maintained software guidelines/regulation standards, documentation of applications. I represented the IT Department on a management level; and, identified areas where existing policies and procedures required change.

ColdFusion Developer / Contract Work | [AT&T](#) | Mount Clemens, MI. – Mar 2006 - Jun 2006

- Programming ColdFusion applications (Contract work) using MS SQL, HTML, CSS, JavaScript; and, anything in between. I mostly worked on enhancing AT&T's current ColdFusion applications that the upper management and executives normally use. I only had to be compatible with IE and ensure appropriate software testing. I maintained documentation as needed based on user requirements.

ColdFusion Developer / Contract Work | [Zondervan](#) | Grand Rapids, MI. – Jan 2006 - Mar 2006

- Programming ColdFusion applications using MS SQL, HTML, CSS; and, JavaScript. I was hired to develop the online employee application process. I was given a vision on what the look and feel should be and developed it from there. I created and implemented an online application form for upcoming employees. The JavaScript was complex considering the guidelines I had to follow.

Business Owner / Service Provider | The Internet Web Firm | Lake Leelanau, MI. |
Dec 2001- Jan 2006

- ColdFusion 5 Programming and Web Design (ColdFusion, HTML, CSS, JavaScript; and, MS SQL; and, MS Access). I maintained a small website clientele including hosting, custom administrative control panels, email setup; and, domain name purchases. All clientele has been dropped or transferred. I boosted websites visibility through SEO; and, ensured cross browser compatibility using W3C compliance. I researched the competition; and, tried to prepare for future needs / plans / strategies. I provided consultation for technical guidance.
- I offered computer services for hardware, software, printers, networking, etc...

EDUCATION

Ferris State University | Bachelor Degree in Computer Information Systems | Jan 2000
– Jan 2005
